Remote Deposit. Snap, Tap, & Go

When your life is in the fast lane, you may not have the time to take the exit for a stop at the credit union. While we always enjoy seeing you, we understand that it's not always convenient to drop by the credit union to deposit a check. That's why we now offer the ease of depositing a check with a few taps. Here's how it works: Use the Omaha FCU's credit union's app available for your smart phone or tablet, scan and upload check images for electronic deposit into your account. You'll simply take a picture of both sides of the check and then send them to us. It's a safe, fast way to make a deposit - anytime day or night, even on weekends. Visit us online or stop by when you're in the neighborhood and we'll help you go mobile. Then next time you need to make a check deposit, you'll snap, tap and be on your way.

Be "Smart" And Stay Safe When You Go Mobile

Your credit union knows that as a young person today you're on the go, and you want your credit union to be there along with you. That's why our free mobile banking service provides you with the ultimate in convenience and control when it comes to managing your money.

With the new and improved downloadable app for iPhone, iPad, and Android devices, credit union members can access their accounts almost anywhere. And, you can enjoy this service knowing that you're using a mobile banking app protected by mobile banking security measures, including state-of-the-art encryption, firewalls, and secure logins.

However, with identity theft always a concern, it can never hurt to take some additional general

precautions when using mobile banking (or accessing any other online accounts). To maximize your safety when using your Smartphone, follow these rules:

- * Keep your personal info personal. Never share your PIN, password or security question with anyone or save it on your phone.
- * Password-protect your phone. This way, possible perpetrators cannot access your info if it's lost or stolen.
- * Call your credit union right away in the event your phone is lost or stolen. Using a computer, change your account passwords immediately!
- * Keep routine tabs on your accounts. This way you'll notice any unusual changes right away.

You're Never Too Young To Start Saving For Retirement

You may be young and the notion of retirement seems like part of the distant future. However, it can't hurt to begin saving for your "golden years" now. In fact, many financial experts actually recommend starting to save for retirement in your 20s, when you are young and still earning income. An ideal way to plan for your financial future is with a credit union IRA.

Many IRA options provide qualified members with tax benefits such as tax-deductible contributions. Take steps now to guarantee a secure, comfortable retirement income down the road. Your credit union offers a variety of IRAs, either in a regular IRA Share Account or an IRA Share Certificate. To contribute to, or establish yours today, call, visit our website, or stop by any branch location.

the LAST Word

Happiness is a shadow. If you chase it, it moves further away. But if you turn to make others happy, it will follow you. Make others Happy and be Happy.
